

The Sonic Blinds Advantage

Our History

Since 1988, Sonic Blinds has been a full-service residential and commercial design and manufacturing facility of top quality custom window treatments.

Located in Western New York, Sonic Blinds fabricates a wide range of custom blinds, shades, shutters and draperies, as well as a selection of motorized applications.

In addition to servicing the local residential and commercial markets, Sonic Blinds designs and fabricates products on a wholesale level for select dealers throughout the country.

Our Capabilities

As a family-owned business, Sonic Blinds has grown over the years to become an award winning industry leader and innovator, having developed patented fabrication technology offered exclusively to its customers.

The company's state-of-the-art manufacturing facility is equipped with the highest quality, custom-made equipment, including ultrasonic cutters and sealers. The Sonic Blinds patented Seal-n-Split® process eliminates frayed edges on roller shades — a common problem with conventional roller shade fabrication.

Delaware North Headquarters, Buffalo, New York. Fabricated and installed 850 window shades.

A curved glass wall 100 feet wide and 2 stories tall features custom motorized roller shades and motorized, custom curved drapery hardware and drapes. Banquet Room, Westin Hotel, Buffalo, New York

A Reputation for Excellence

Our Service Commitment

Sonic Blinds takes great pride in providing outstanding custom window covering products and customer service. The expert staff is comprised of dedicated, trained professionals, fully accredited with 20+ years of specialized experience in the industry. Company policy is to only produce custom coverings of superior quality workmanship and materials, fabricated to exacting customer specifications and delivery time-lines... all for an exceptional value.

Your Assurance of Quality

Only the best industry-recognized OEM parts, components and fabrics are used for fabrication, to ensure unsurpassed durability and long-lasting beauty, so that every custom window covering produced is guaranteed to perform beyond customer expectations.

At the Sonic Blinds fabrication facility, quality is never compromised. Specifications and workmanship are constantly monitored to ensure product performance and customer satisfaction.
